It is said that the highest point a soul may obtain in this world is to be a teacher.

Chinese Proverb

PROFILE

My name is Michael Garcia and I am proud to be an educator. My guiding principle as an educator is a belief in a student-centered classroom where each student can engage in learning in a nurturing environment. Equally important to me are challenging and motivating my students to learn and achieve, while providing them a strong ethical base. I believe a high level of communication is the best strategy between myself, my students, their parents and my school administration.

My experience comes from twenty plus years at NASA's Jet Propulsion Laboratory, as a high school math teacher and from the many professional development workshops that I have conducted for JPL and Apple Inc. in which I have shown many hundreds of educators how to integrate technology into their math and science curricula.

EDUCATION

BA Industrial Arts, California State University Los Angeles (CSULA)

Single-Subject Credential Program, Physical Sciences, CSULA

Single-Subject Credential Program, Mathematics, CSULA

Supplementary Authorization: Computer Concepts and Applications, CSULA

Master's Programs:

New Media Design and Production, School of Education, CSULA

Computer Technology, School of Education, CSULA, Winter 2009

SKILLS

Educator: Mathematics and Physical Science

Trainer: Professional Development Workshops: Apple Inc., NASA/JPL.

Computer and Internet Specialist: Extensive experience using interactive multimedia, data visualization, educational use of the Internet, website production and design. Expert rating Apple and PC platforms

Education Technology Specialist: Extensive computer knowledge, including sensors/probes and related interface hardware and software, telescopes, microscopes, multimedia presentation techniques and the use of science project kits.

MICHAEL GARCIA

Curriculum Designer: Curriculum content specialist for NASA-JPL and Apple Inc. Projects include the *Virtual Tech High School Project* Federal Department of Education, San Bernardino County Office of Education

Grant Writer: Grants and proposals to NASA Education Division, National Science Foundation, Pomona, Glendale, and Sanger Unified School Districts.

EXPERIENCE

Educator: Claremont Graduate University, Claremont, CA, Current. Verdugo Hills High School, Los Angeles Unified School District, Spring 2007. James Monroe High School, Los Angeles Unified School District, 1981-82.

Trainer: *Professional Development*, Science, Mathematics and Technology Education, Consultant to Apple Inc., July 2004 - Current.

Project Manager and Principal investigator: Project SPACE Program: NASA Learning Technologies Project, High Performance Computing and Communication Program. Recipient of a 5-year NASA Learners Grant, 2000-2004.

Writer, *Virtual Tech High School Project* Federal Department of Education, San Bernardino County Office of Education: Created an improved high school physics curriculum with many interactive computer animations, visualizations, example problems, and research activities.

Senior Education Specialist, Jet Propulsion Laboratory, California Institute of Technology, Educational Affairs Office, Communications and Education: 1993 -2000

Education Specialist, Jet Propulsion Laboratory, California Institute of Technology, Educational Affairs Office, 1982-1992

WORKSHOPS - PRESENTATIONS

“Tech-Ed” - Technology Education Conference, “Podcasting in Education,” 2007, Ontario, CA

Apple Professional Development Workshops: Math and Science Integration Inservice, 2004 – Current
